COMPANY
PRESENTATION
2026

WWW.RCDKITCHEN.COM

RCD

RCD Design Center is a leading specialist in imported furniture and kitchen solutions, with **over 25 years of expertise in the industry.**

We proudly represent world-class kitchen brands including Valcucine, Cesar, Häcker, and CLEANUP, alongside premium imported loose furniture from Italy.

What truly sets RCD apart in the market is our own manufacturing facility, a foundation of our strength and credibility. **Established more than 65 years ago** and located on Rom Klao Road, our factory represents decades of craftsmanship, technical know-how, and continuity across generations.

This long-standing heritage led to the creation of our in-house brand, RCD Kitchen — a fully customizable kitchen solution designed around your personal style. Every RCD Kitchen is tailored to individual needs, offering flexibility in design while maintaining uncompromising standards of quality.

The materials we select are carefully curated from trusted, high-quality brands and are chosen with a clear focus on longevity, durability, and long-term performance.

This philosophy reflects our belief that a kitchen is not merely a space, but a lasting investment — built to stand the test of time.

Just as RCD Design Center has remained a trusted name in the industry for over 25 years, our factory heritage of more than six decades stands as a testament to our commitment to enduring quality, timeless design, and sustainable longevity.

Cleanup

R&C

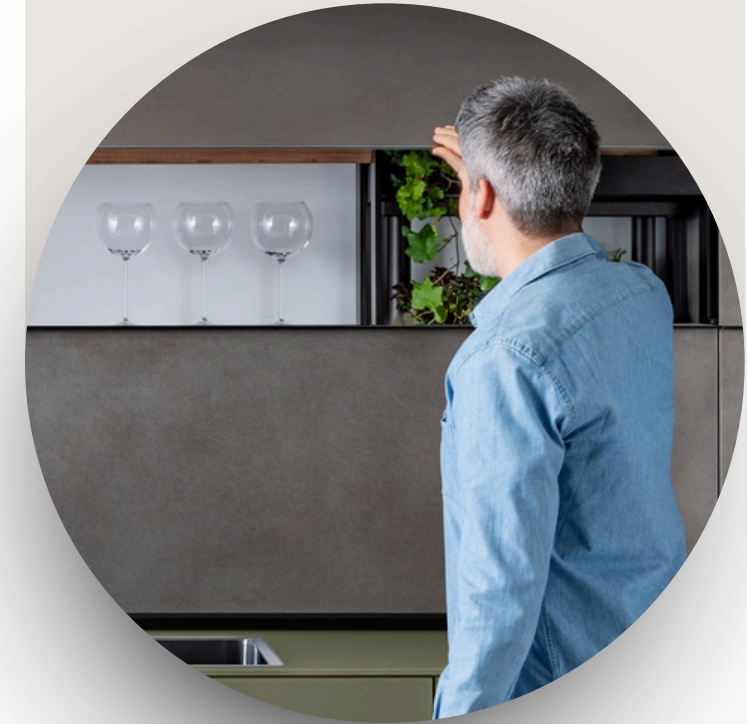

We put people and their well-being at the center of what we do; stimulating their senses to bring about joy in everyday activities. Design kitchens made to last generations, kitchens that are timeless and impervious to trends. Transform cooking into an extraordinary experience through the constant innovation of forms and materials. Focus on people and the environment in which they live. We innovate for life.

GERMAN MADE

CONCEPT 130

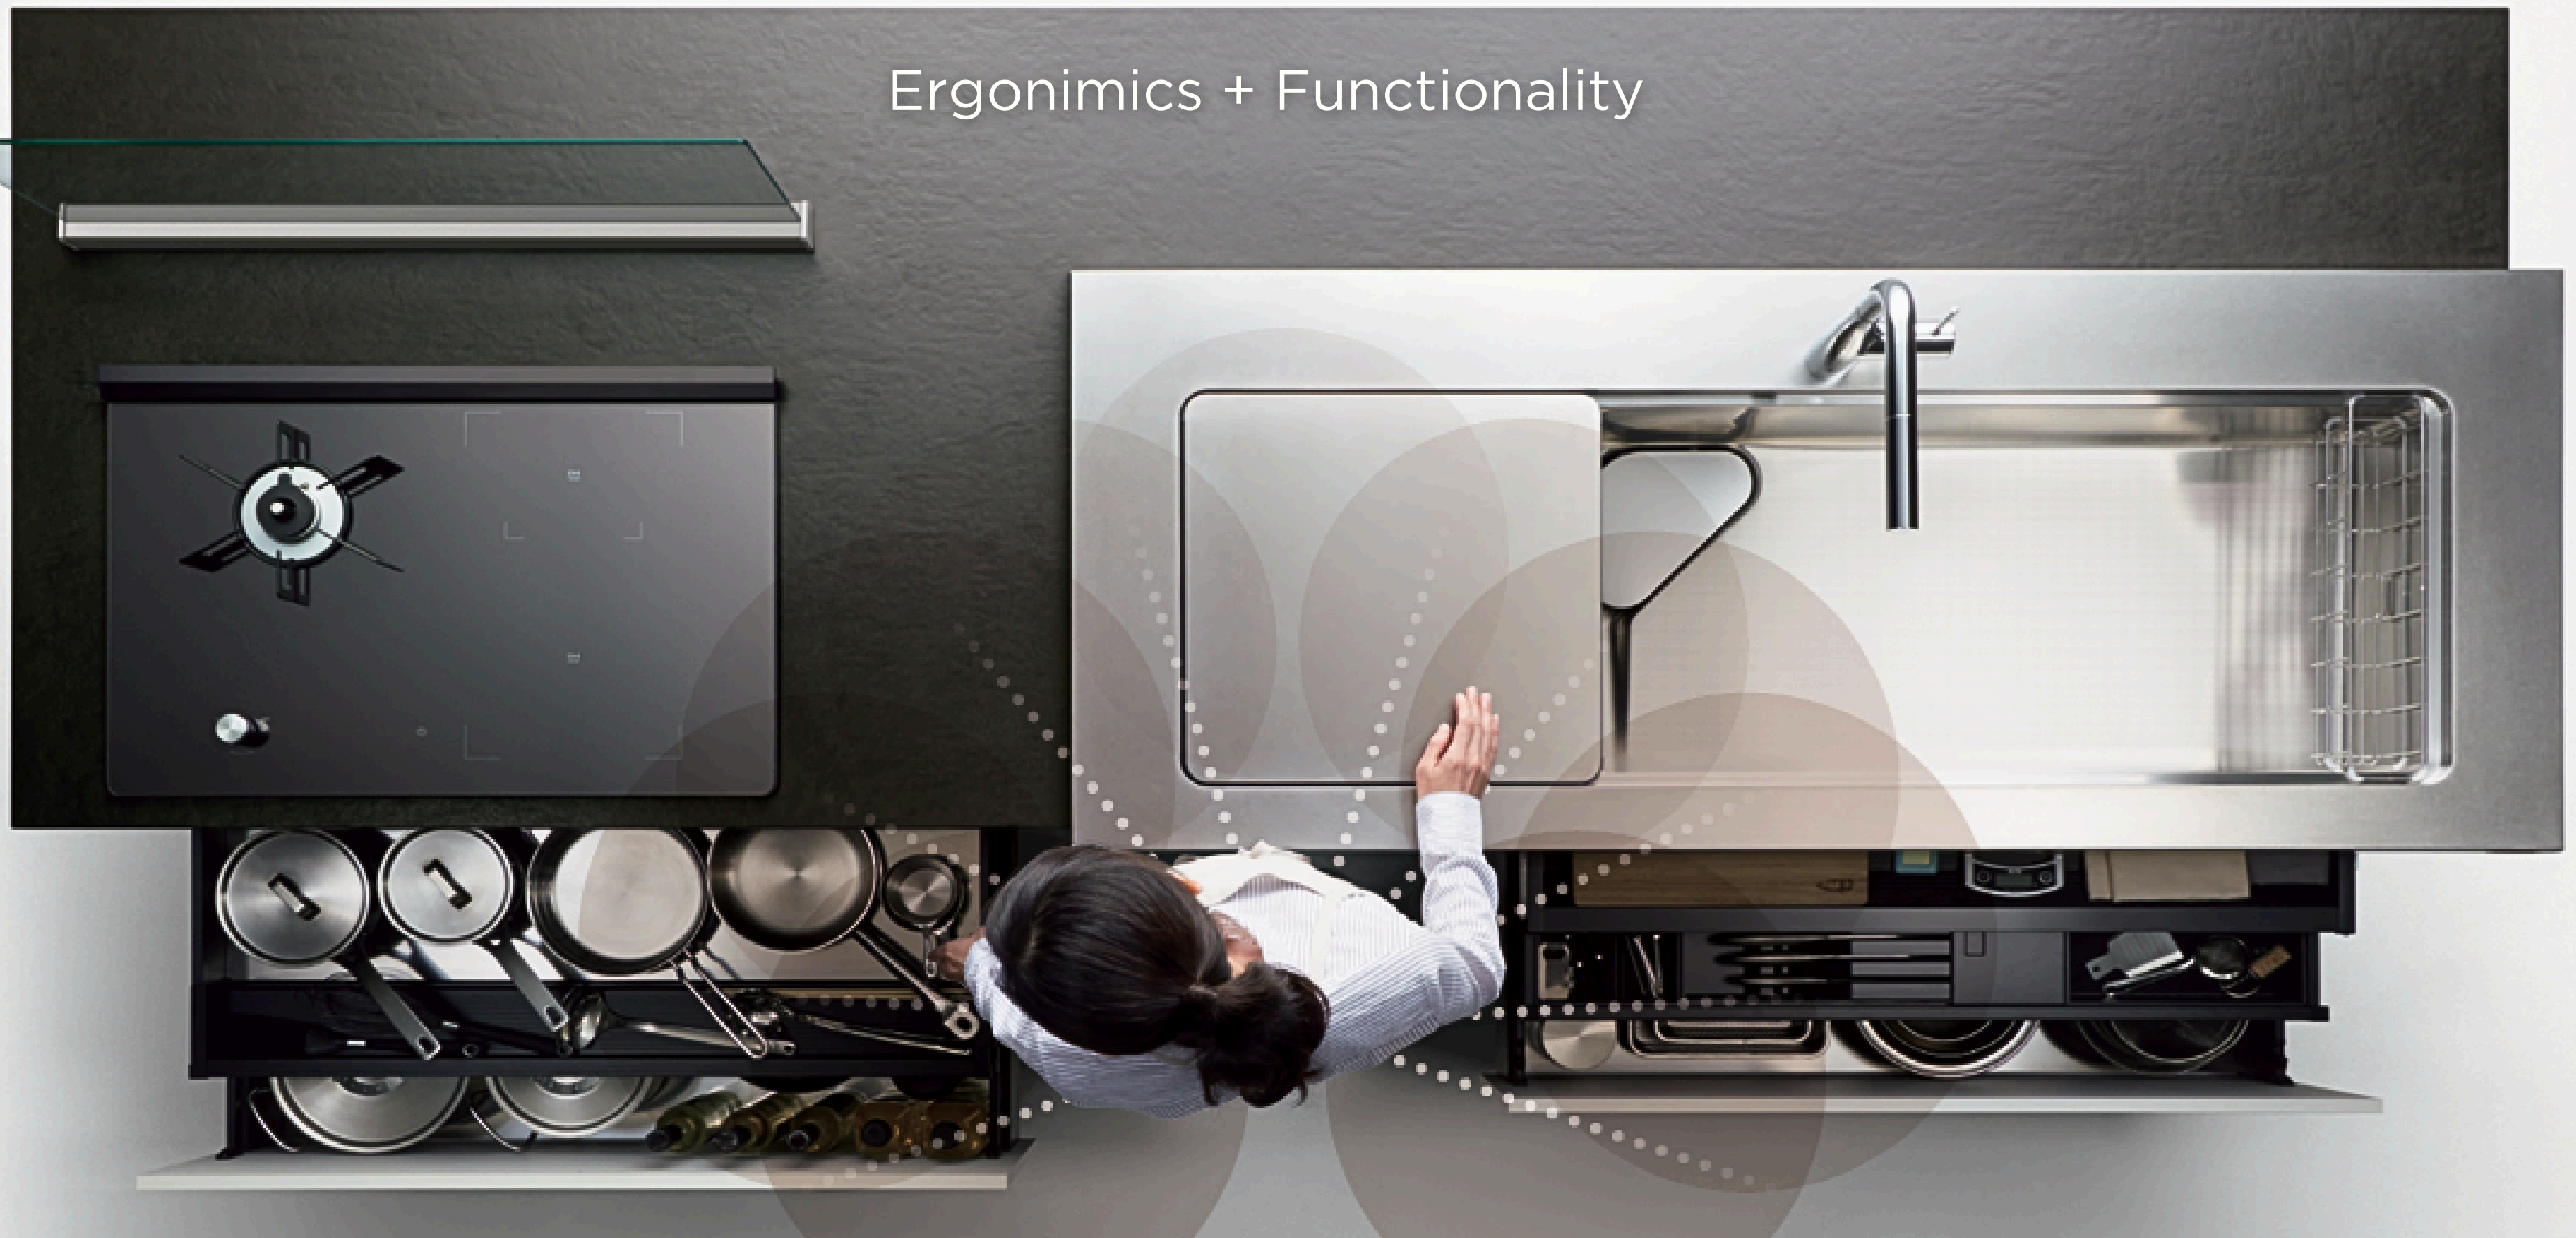

Functions and forms are firm and uncompromising.
Monument of technology by going into the heart of requirement in kitchens.
Latest stainless steel technology, ergonomics.
A whole new level reached by being the manufacturer specialized in kitchens.
A kitchen that makes you want to invite guests and deepen bonds is now available.

INOVATIVE
KITCHEN IN JAPAN

Ergonomics + Functionality

Painted Doors - Kyo Yuzen Pattern

Inspired by the traditional tataki-style dyeing, the technology is transformed into a door face material. It creates a unique atmosphere.

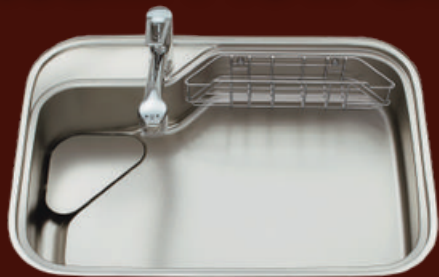

The most innovative stainless steel kitchen.

Traditional techniques re-created with the latest technology
The motif of "Tataki-Dye", a traditional technique, reproduces a unique Japanese texture.
We have incorporated it into our cutting-edge kitchens.
Expression produced by a skilled worker by hand
The sense of depth that cannot be reproduced by machine is created because each piece is finished by a skilled craftsmen.
The subtly different expressions produced by handwork are fascinating.

Super Silent Sink

High performance sink that resists scratches and water scale.
Silence of water sound is library-level.

Silent water sound

Vibration control structure is used not only at the bottom back of the sink but also the sides. Water splashing sound is suppressed and will not interfere with conversations.

Clean Plate

Drainage plate that tends to have sliminess is also made of stainless steel, so it is easy to care for.

Another appealing point!

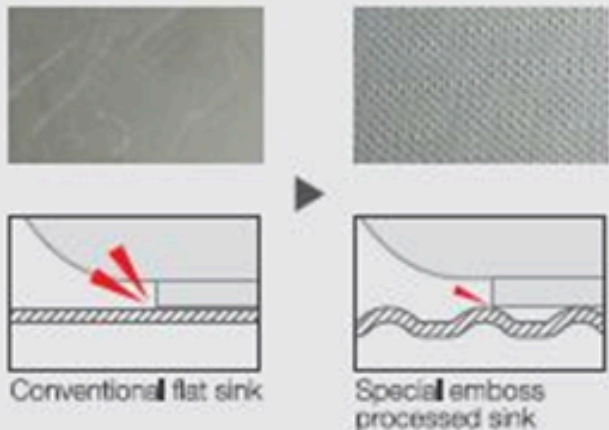

Drainage

Special emboss processing

Stainless and inconspicuous scratches.

By applying emboss processing, the surface where dishes and sink contact have reduced. This enabled the stainless and inconspicuous scratch feature.

Stream Flow Sink

A rail that helps keep the sink clean

With the water force during the vegetable washing while cooking or dish washing after meal, garbage in the sink swiftly flows into the drainage.

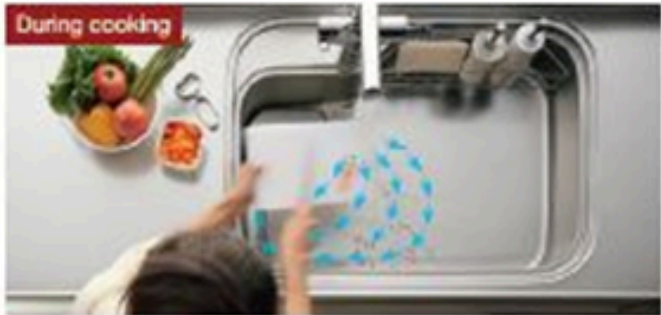

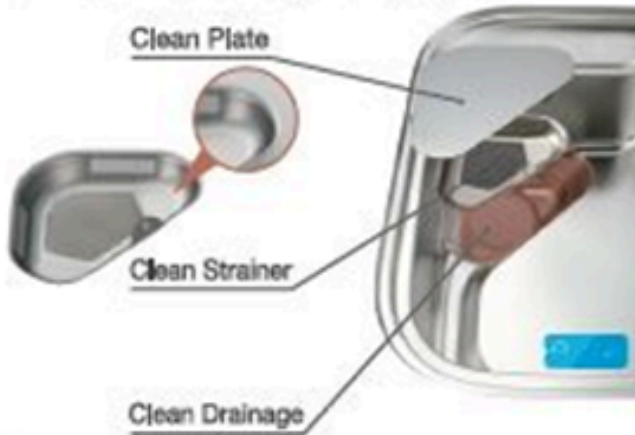

Help keep your sink clean

Water used during cooking will capture garbage and stains and flow towards the stream flow. Garbage flowing into the stream flow will be pushed away with water and into the drainage.

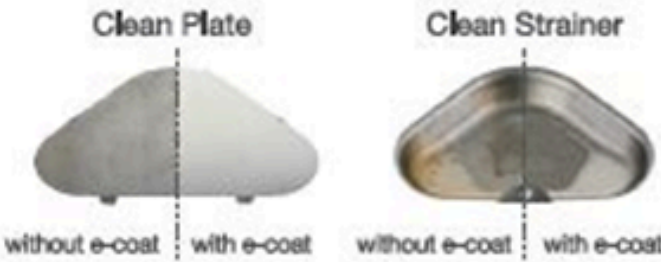

Joint-less integrally molded Clean Strainer

Strainer that catches garbage and have tendency to stain is also stainless steel and integrally molded. Likewise the sink and drainage, it is e-coated, which can wipe off stains easily and very hygienic.

Comparison of water-wash for oil stains

Left : Clean Plate used for one week at a household without cleaning.
Right : Clean Strainer with oil stains washed with water.

[Conventional Detergent Rack]

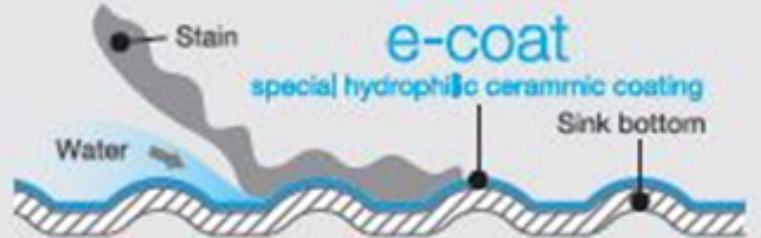

[Our Detergent Rack]

e-coat (special hydrophilic ceramic coating)

It is a special hydrophilic ceramic coating compatible with water. Water goes under the stain and removes it. Removing of oil stains and water scale that are difficult has become a lot easier.

R&C

- RCD in official collaboration with the Japanese brand Cleanup.
- Japanese kitchen appliances are now made in Thailand at the RCD factory.
- Launched in October 2022, the official open- ceremony took place at Baan Lae Suan Fair 2022.

BEYOND NATURE

MDi ▲ MDi | INDUCTION

SURFACES

MDi - MINERALS DESIGN INNOVATION

MDi

MDi are high-value-added surfaces that have been created and designed using the purest natural minerals in an innovative, exclusive, and sustainable production process.

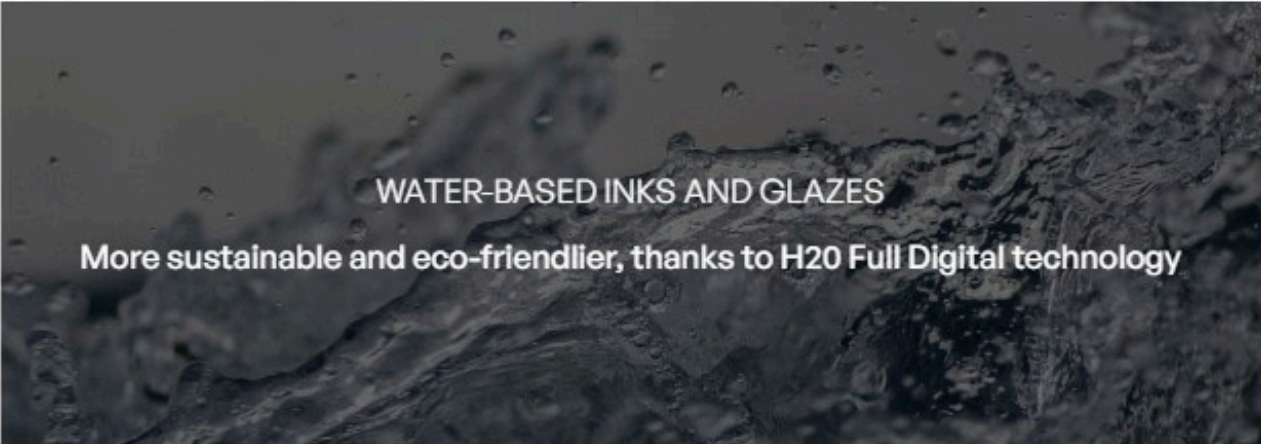

The responsible use of natural resources and its high recyclable percentage make MDi a highly sustainable surface. Our know-how, together with creativity and our Tailor Made service, offers unique and distinguished surfaces for the architecture, fashion, furniture, and interior design sectors. MDi surfaces are exceptional with a total 360° aesthetic continuity by carefully combining and selecting each of the minerals that are part of our surfaces and textures in an innovative and unique production process.

Ons antwoord op Desk Sharing

Alles in één oogopslag

Dankzij een Facility Dashboard hebben facility managers altijd toegang tot gedetailleerde overzichten en analyses van de werkplekbeveiliging. Daarnaast krijgen ze essentiële gegevens voor kostenoptimalisatie. Niet alleen het overzicht van de beveiliging kan eenvoudig worden bijgehouden. Met optionele sensoren kan ook het klimaat in een ruimte gemeten worden.

Custom module

LED-oplichter

Klimaatmeting

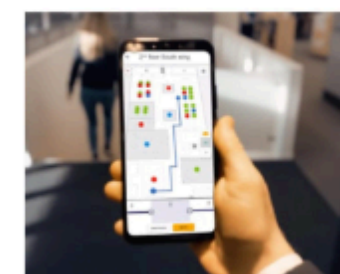

Optionele sensoren

Aanpak van werkovername

Met intelligente sensoren wordt zowel de aanwezigheid van een bureau als het aantal personen in vergaderkamers vastgesteld, waardoor u inzicht krijgt in de capaciteit en de benutting van kantoorruimtes of vergaderkamers. Extra detectoren die onder andere de temperatuur en de CO2-concentratie meten, bieden inzicht in het klimaat van de ruimte. Op lange termijn kunnen daarmee ook maatregelen worden genomen om de kwaliteit in alle ruimten van het kantoorgebouw te verbeteren.

Veilige terugkeer naar kantoor

Kunnen medewerkers niet thuis werken of is men van plan terug naar kantoor te gaan? In ultraklein formaat maakt de Iotspot een grip op de pandemie, maar vooral de capaciteit van het kantoor als de opzet van de werkplekken worden aangepast. Dit is geen probleem met de slimme hardwarecomponenten van Iotspot. Met een eenvoudig aan te brengen NFC-sticker, de Iotspot-puck, en de gebruikers-app kunnen medewerkers veilig werken op kantoor.

Nieuwe favoriete plek

In de gebruikers-app kunt u met de zoekfunctie eenvoudig in een gedetailleerde en uitgebreide plattegrond een beschikbare bureau reserveren, voor een bepaalde tijd of voor de hele dag. Voor grote kantoorcomplexen of campusbouwen kan een indelingssysteem worden ontwikkeld. Zo vindt u in het gebouw de gebouwen die u wilt bezoeken, de weg naar een vergaderkamer, bureau of projectruimte.

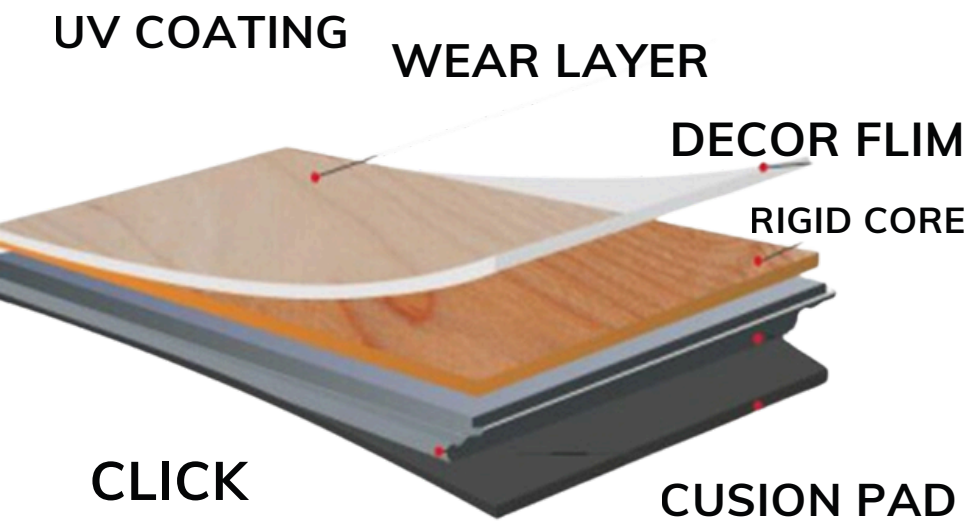

Onze hardware van de IT-Infrastructuur

Het cloudplatform staat centraal in de IoT-oplossing. Met de geavanceerde communicatie-technologie, een smartphone of IoT-chip, wordt een directe en beveiligde verbinding met de cloud gemaakt. Een lokaal netwerk is niet vereist. Naast de systeemcomponenten is er ook een eenvoudig te integreren hardware nodig om het systeem te installeren in het kantoorgebouw. De boekingsstatus van een bureau wordt realtime met kleuren aangegeven.

LVT LUXURY FLOORING

LVT : Size 1522 x 245 x 4.2mm. , PACKING QUANTITIES / BOX : 2.237 Sqm.

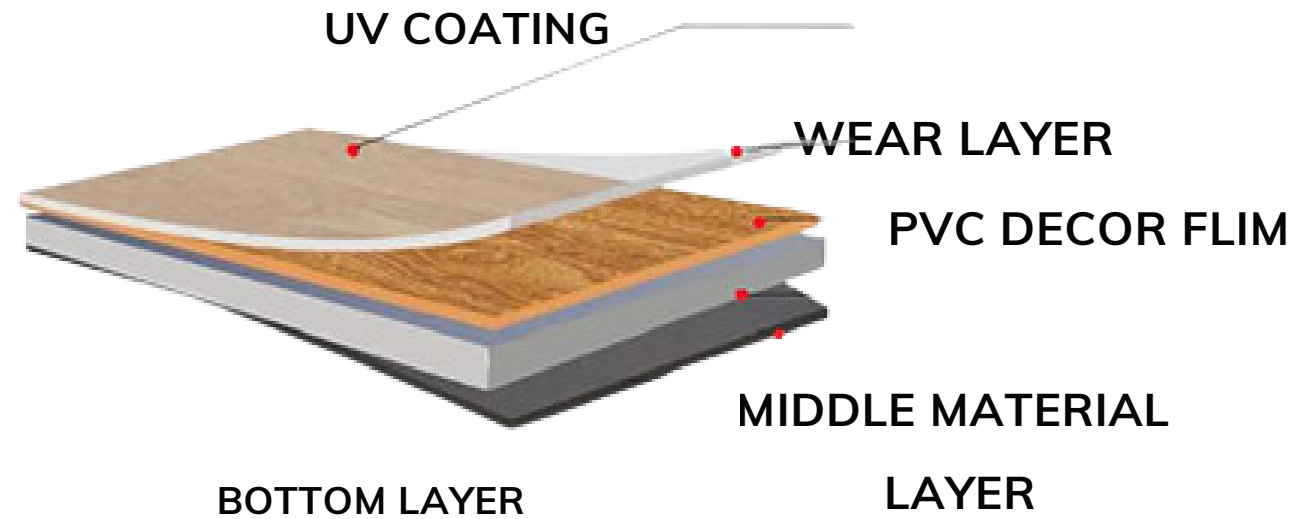

7 สี

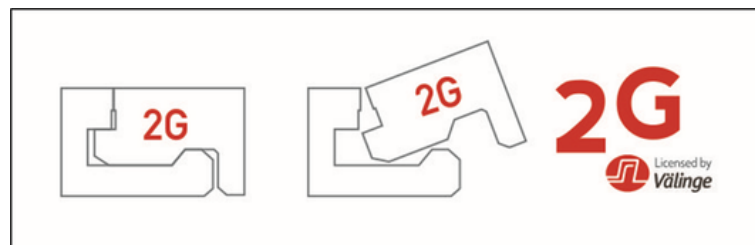

- ติดตั้งง่ายด้วยระบบ 2G ล็อคซึ่งทำให้แข็งแรงและทนทานต่อการยัดเป็นระบบที่ดีกว่าระบบคลิ๊กล็อคอื่น
- ง่ายต่อการติดตั้ง
- มีคุณสมบัติป้องกันน้ำรั่วซึมไปได้พื้นด้านล่าง เนื่องจากเป็นระบบคลิ๊กล็อคที่มีมาตรฐานสูง สามารถเข้คล้างได้เช่นเดียวกับพื้นกระเบื้องทั่วไป
- ป้องกันการลามไฟ (มีคลิปการทดลอง)
- ป้องกันรอยขีดข่วน ไม่ว่าจะเป็นรอยปากกา หรือการวางเฟอร์นิเจอร์อย่างเก้วอี้ที่มีการเลื่อนไปมาจะไม่เกิดรอยขีดข่วนที่สำคัญทนต่อแรงกดทับได้ดี
- ผิวสัมผัสของวัสดุมีความเป็นธรรมชาติ และด้วยการผลิตที่มีคุณภาพ ทำให้ช่วยลดเสียงในขณะเดิน และนุ่มเท้าได้ดี
- UV Coating ช่วยป้องกันยูวีจากแสงแดด อีกทั้งยังช่วยยืดอายุการใช้งานไปได้ยาวนาน
- วัสดุผ่านขั้นตอนตามมาตรฐาน EU ในการทดสอบ DiBT ของเยอรมัน และยังมี Certification รับรองอีกมากมาย

Note to Our Dear Customers:

Each brand, whether imported or local, has its own degree of flexibility in regard to customization. Depending on the customer's lifestyle, requirements, preferences for functions, etc.

Regarding loose furniture, preorders are also available. The customer is also welcome to ask about other imported brands they are particularly interested in. Our team will research for further proposals per necessary.

Our sales team at RCD Design Center is more than happy to offer educated recommendations based on your desires.

Our design team is more than willing to plan your dream kitchen /walk-in solutions into reality.

YOU
